- React.JS
- Tailwind CSS
- PHP
- SQL
- jQuery
- JavaScript
- git & github
- Bootstrap
- CSS
- HTML
- C++

LANGUAGES

- English
- Bengali

ABOUT ME

I am a self-taught passionate web designer specializing in HTML, CSS, Bootstrap, Tailwind CSS, JavaScript and React.js. I can convert a Figma design or a PSD design into a responsive web template using HTML, CSS, Bootstrap, Tailwind CSS and JS. I can develop the backend of an application using PHP and MySQL database.

PROJECTS

1. React Calculator

In this project, I use React with Vite. I use react functional components and manage state with the useReducer hook.

4. Academic Thesis/Project Information Registry

This project is mainly for a university to register their student's academic thesis/project information. In this project, I used HTML, CSS and JS for front-end design. On the backend, I used PHP and MySQL. I used JQuery for front-end functionality and 'PhpSpreadsheet' for student data entry from Excel files.
